After his time in London, he was recruited to play at powerhouse University of New Brunswick (CIS). After his university career Kelly was offered an opportunity to play in Austria and played in Europe for 5 years prior to returning home after the birth of his son. During his Junior/ University/Pro career Kelly won many Team Championships and League Titles. He was also fortunate enough to win many individual awards including Coaches Player Of the Year for the League in both England and Germany as well as many Top Defenseman accolades.

Although Kelly, Mark and staff work with many Elite Pro's and Jr players, they also love working with minor hockey players from all levels. They are very passionate about training young hockey players and care about every single student that steps on the ice with them. Kelly Reed Hockey has also added video analysis and individual and team analysis to their already very high demand camps.
